THE EVENING JOURNAL ALMANAC. 1882.

The Year 1882.

The year 1882 is the latter part of the 5642d and the beginning of the 5643d since the creation of the world, according to the Jews. It answers to the 6595th of the Julian Period, the 2635th from the foundation of Rome, 2658th year of the Olympiads, and the year 7390-91 of the Byzantine era. The 107th year of American Independence begins July 4.

Eclipses in the Year 1882.

There will be two Eclipses of the Sun this year, no Eclipse of the Moon, and a Transit of the planet Venus over the disk of the Sun, as follows:

- I. A Total Eclipse of the Sun, May 17. Invisible in America.
- II. An Annular Eclipse of the Sun, November 10. Invisible in America.
- III. A Transit of the planet Venus over the disk of the Sun, December 6. Visible in the United States. There will be four contacts of the circular disks, or limbs, of the Sun and planet; namely, a *first external* contact of the limbs, and then, after an interval of about twenty-one minutes of time, the second contact, or *first internal* contact, will take place. After an interval of about six hours the third contact, or *second internal* contact, will take place; and about twenty-one minutes after the third, the fourth contact, or *second external* contact, will complete the Transit. The times of these four contacts, as computed from the data of the American Nautical Almanac, are given for several places in the United States, as follows:

CONTACTS.	At Chicago, Ill.	At Washington, D.C.	At New York city.	At Albany, N. Y.
	H. M. S.	H. M. S.	H. M. S.	H. M. S.

SCHOOL CHILDREN.—The latest statistics show 41,678,000 school children in the world, so far as the census takers were enabled to ascertain. These have about 1,000,000 teachers. First in proportion to population comes the United States, with 9,373,195 pupils and 271,144 teachers. Both here and in France the school children form one-fifth of the population. Prussia, with 4,007,776 pupils and 57,936 teachers, takes the third place. Next comes England and Wales, where, as in Prussia, school children are one-sixth of the population. Austria then files into line. In Japan there are 2,162,962 school children, but the total population is not known.

WHERE OUR FORESTS ARE GOING.—To make shoe-pegs enough for American use consumes, annually, 100,000 cords of timber; and to make our lucifer matches, 300,000 cubic feet of the best pine are required every year. Lasts and boot-trees take 500,000 cords of birch, beech and maple, and the handles of tools 500,000 more. The baking of our bricks consumes 24,000,000 cords of wood, or what would cover with forest about 50,000 acres of land. Telegraph poles already unrepresent 800,000 trees, and their annual repairs consume 300,000 more. The ties of our railroads consume annually thirty years' growth of 75,000 acres; and to fence all our railroads would cost \$45,000,000, with a yearly expenditure of \$15,000,000 for repairs. These are some of the ways in which American forests are going. There are others: our packing boxes, for instance, cost in 1874 \$22,000,000; while the timber used each year in making wagons and agricultural implements is valued at more than \$100,000,000.

UNITED STATES GOVERNMENT.

EXECUTIVE.

President.

CHESTER A. ARTHUR, of New York. Term expires March 4, 1885.

The President is chosen by the electors, who are elected by the People, each State having as many as it has Senators and Representatives in Congress. He holds office four years; is Commander-in-Chief of the Army and Navy of the United States; has power to grant pardons and reprieves for offenses against the United States; makes treaties by and with the advice and consent of the Senate; nominates and, with the consent of the Senate, appoints all Cabinet, Diplomatic, Judicial and Executive Officers; has power to convene Congress or the Senate only; communicates to Congress, by message, at every session, the condition of the Union, and recommends such measures as he deems expedient; receives all Foreign Ministers; takes care that the laws are faithfully executed, and the public business transacted. Salary, \$50,000 a year.

F. J. PHILLIPS, New York, *Private Secretary*.
O. L. PRUDEN, New Jersey, *Assistant Private Secretary*.

WM. H. CROOK, District of Columbia, *Executive Clerk*.

C. M. HENDLEY, New York, *Executive Clerk*.

COL. A. F. ROCKWELL, *Com'r Public Buildings*.

Vice-President.

DAVID DAVIS, of Illinois, President of the Senate. The Vice-President is chosen by the electors at the same time and in the same manner as the President; is President of the Senate, and has the casting vote therein. In case of the death, resignation, disability or removal of the President, his powers and duties devolve upon the Vice-President for the residue of his term. In case of vacancy, where the Vice-President succeeds to the Presidential office, the President *pro tempore* of the Senate becomes Vice-President. Salary, \$8,000 a year.

CABINET.

Secretary of State.

FREDERICK T. FRELINGHUYSEN, of New Jersey.

The *State Department* preserves the public archives, records, laws, arguments and treaties, and supervises their publication; conducts all business and correspondence arising out of foreign relations, makes out and records passports, commissions, etc.

XLVIITH CONGRESS.

The Constitution requires nine years' citizenship to qualify for admission to the Senate, and seven years to the House of Representatives. An act approved July 26, 1866, requires the Legislature of each State, which shall be chosen next preceding the expiration of any Senatorial term, on the second Tuesday after its first meeting, to elect a successor, each House nominating *viva voce*, and then convening in Joint Assembly to compare nominations. In case of agreement, such person shall be declared duly elected; and if they do not agree, then balloting to continue from day to day, at 12 m., during the session, until choice has been made. Vacancies are to be filled in like manner. The members of each House receive a salary of \$5,000 per annum, and mileage at the rate of twenty cents per mile. For each day's absence, except when caused by sickness, \$3 per diem is deducted from the salary. The President *pro tem.* of the Senate, receives the same compensation as the Vice-President. The Speaker of the House of Representatives receives double the salary of a member.

SENATE—76 MEMBERS.

DAVID DAVIS, of Illinois, *President pro tempore.*FRANCIS E. SHOBER, *Acting Secretary.*

(Approved February 8, 1881.)

BENNINGTON MONUMENT.

Appropriates forty thousand dollars to be transferred to the Bennington Battle Monument Association when the design for the monument is approved by the President, and when a board of three Army officers shall report that the moneys already raised, with the sum appropriated, shall be sufficient to complete the monument in accordance with the said design. (Approved February 8, 1881.)

NATIONAL BANKS.

That the oath or affirmation required by section fifty-two hundred and eleven of the Revised Statutes, verifying the returns made by national banks to the Comptroller of the Currency, when taken before a notary public properly authorized and commissioned by the State in which such notary resides and the bank is located, or any other officer having an official seal, authorized in such State to administer oaths, shall be a sufficient verification as contemplated by said section fifty-two hundred and eleven: *Provided*, That the officer administering the oath is not an officer of the bank. (Approved, February 26, 1881.)

SCHUYLERVILLE MONUMENT.

Appropriates \$30,000, to be expended by the Saratoga Monument Association under the direction of its building committee, in erecting at Schuylerville, State of New York, a monument to commemorate Burgoyne's surrender; the same to be of granite and of the obelisk form; the main shaft to be twenty feet square, and the height one hundred and fifty feet, as designed by J. C. Markham, of New York city and adopted by said association: *Provided*, That before transferring said money, or any part thereof, to the Saratoga Monument Association, it shall be made to appear to the satisfaction of the Secretary of the Treasury, who shall so certify, that sum of money has been raised by said association, which, together with the sum hereby appropriated, shall be sufficient to complete the monument in accordance with the design specified. (Approved, March 3, 1881.)

TRADE MARKS.

Owners of trade-marks and in commerce with foreign nations and Indian tribes, who are domiciled in the United States, or located in any foreign country or

tribe which affords similar privileges to citizens of the United States, may register the same upon causing a statement thereof to be recorded in the Patent office, and paying a fee of \$25, the application to be accompanied by a written declaration under oath that such owner has the exclusive right to the use of such trade-mark; that it is used in commerce with foreign nations or Indian tribes, and that the description and fac-similes presented for registry truly represent the trade-mark sought to be registered; no trade-mark to be registered unless the same appears to be lawfully used as such by the applicant in foreign commerce or commerce with Indian tribes as above mentioned, or is within the provisions of a treaty, convention, or declaration with a foreign power, nor which is merely the name of the applicant; nor which is identical with a registered or known trade-mark owned by another and appropriate to the same class of merchandise, or which so nearly resembles some other person's lawful trade-mark as to be likely to cause confusion or mistake in the mind of the public, or to deceive purchasers. A certificate of registry shall remain in force for thirty years from date, unless the trade-mark applies to articles not manufactured in this country, and receives protection under the laws of a foreign country for a short period. Registration of a trade-mark shall be *prima facie* evidence of ownership; and any person who shall reproduce, counterfeit, copy or colorably imitate any registered trade-mark shall be liable to an action for damages for such wrongful use, at the suit of the owner thereof, and courts of the United States shall have original and appellate jurisdiction in such case without regard to the amount in controversy. (Approved, March 3, 1881.)

EXHIBITION OF 1883.

That whenever the President shall deem the preparations which shall have been made therefor adequate, he is hereby authorized and requested, in the name of the United States, to invite all foreign governments to be represented at and take part in the international exhibition of arts, manufactures, and products of the soil and mine, to be held under the direction of the United States International Commission at the city of New York, in the State of New York, in the year 1883: *Provided, however*, That the United States shall not be liable, directly or indirectly, for any of the expenses attending such exhibition, or by reason of the invitation hereby authorized. (Approved, March 1, 1881.)

STANDARD WEIGHTS AND MEASURES.

Authorizes a complete set of all the weights and measures adopted as standards to be delivered to the Governor of each State in the Union, for the use of agricultural colleges in the States, respectively, which have received a grant of lands from the United States, and also one set of the same for the use of the Smithsonian Institution: *Provided* that the cost of each set shall not exceed \$200, and a sum sufficient to carry out the provisions of this resolution is hereby appropriated out of any money in the Treasury not otherwise appropriated. (Approved, March 3, 1881.)

DISTRIBUTION OF SEEDS.

An equal proportion of one-half of all seeds, plants, and cuttings shall, upon their request, be supplied to Senators, Representatives, and Delegates in Congress for distribution among their constituents, or shall, by their direction, be sent to their constituents; and the persons receiving such seeds shall inform the department of the results of the experiments therewith: *Provided*, That all seeds, plants, and cuttings so allotted, remaining uncalled for at the end of the fiscal year shall be distributed by the Commissioner of Agriculture; \$3,000 of the sum appropriated (\$50,000) to be expended in the discretion of the Commissioner in experiments for the improvement of the varieties and culture of cotton; the Commissioner is required to report the place, quantity, and price of seeds purchased, from whom purchased, and the date of purchase. But nothing in

this paragraph shall be construed to prevent the Commissioner of Agriculture from sending flower, garden, and other seeds to those who apply for the same. And the amount appropriated is not to be diverted or used for any other purpose but for the purchase, propagation, and distribution of improved and valuable seeds, plants, cuttings, and vines. (Clause in Agricultural Appropriation Act.)

POSTAL SERVICE.

Appropriates \$1,426,000 for railway post-office car service. When any railroad company fails or refuses to provide railway post-office cars when required by the Post-office Department, or shall fail or refuse to provide suitable safety-heaters and safety-lamps therefor, with such number of saws and axes to each car for use in case of accident as may be required by the Post-office Department, said company shall have its pay reduced ten per centum on the rates fixed by statute.

The Post-master General shall hereafter cause advertisements of all general mail-lettings of each State and Territory to be conspicuously posted in each post-office in the State and Territory embraced in said advertisements for at least sixty days before the time of such general letting; and no other advertisements of such lettings shall be required; but this provision shall not apply to any other than general mail-lettings. And whenever it shall become necessary to employ temporary service on any mail route, it shall be the duty of the Post-master General to advertise for bids, or proposals, for such service by posting notices in the post-offices at the termini of such route and upon a bulletin-board in a public place in the Post-office Department building at Washington, in the District of Columbia, for at least ten days prior to such letting. (Post-office Appropriation Act.)

ARREARS OF PAY AND BOUNTY.

That with a view to the prompt payment of claims for arrears of pay and bounty due to officers and enlisted men of the regular and volunteer forces, and their heirs and legal representatives, there shall be, and hereby is, appropriated, the sum of \$250,000, or so much as may be required to pay said claims, under the following heads of appropriations: "Pay of two and three year volunteers," "Bounty to volunteers and their widows and legal heirs," and "Pay, etc., of the Army." *Provided, however,* That the Secretary of the Treasury shall report to Congress, at the commencement of each regular session, the amount that has been paid out under this provision during the preceding fiscal year. (Sundry Civil Appropriation Act.)

CHANGING NAMES OF VESSELS.

Authorizing the Secretary of the Treasury to permit the owner or owners of any vessel duly enrolled and found seaworthy and free from debt to change the name of the same when in his opinion there shall be sufficient cause for so doing; said Secretary to establish such rules and regulations and procure such evidence as to the age, condition, where built, and pecuniary liability of the vessel as he may deem necessary to prevent injury to public or private interests; and when permission is granted by the Secretary, he shall cause the order for the change of name to be published at least in four issues in some daily or weekly paper at the place of register; the cost of procuring evidence and advertising the change of name to be paid by the person or persons desiring such change of name. [Approved March 2, 1881.]

FOREIGN DECORATIONS.

That no decoration, or other thing, the acceptance of which is authorized by this act, and no decoration

heretofore accepted, or which may hereafter be accepted, by consent of Congress, by any officer of the United States, from any foreign Government, shall be publicly shown or exposed upon the person of the officer so receiving the same.

That hereafter any present, decoration or other thing, which shall be conferred or presented by any foreign Government to any officer of the United States, civil, naval or military, shall be tendered through the department of State, and not to the individual in person, but such present, decoration or other thing shall not be delivered by the Department of State unless so authorized by act of Congress. (Approved January 31, 1881.)

MINING CLAIMS.

If, in any action brought pursuant to section 2326 of the Revised Statutes, title to the ground in controversy shall not be established by either party, the jury shall so find, and judgment shall be entered according to the verdict. In such case costs shall not be allowed to either party, and the claimant shall not proceed in the land office, or be entitled to a patent for the ground in controversy, until he shall have perfected his title. (Approved March 3, 1881.)

PENSIONS.

Section 1 of "An act making appropriations for the payment of invalid and other pensions of the United States for the fiscal year ending June 30, 1882, and for deficiencies, and for other purposes," approved February 26, 1881, is hereby amended by striking out the words "including arrears to," where they occur in the second paragraph of the section, and the words "including arrears" in the seventh paragraph of said section. (Approved, March 3, 1881.)

All pensions payable, or to be paid, under this act to pensioners who are inmates of the National Home for Disabled Volunteer Soldiers, shall be paid to the treasurer or treasurers of said home, upon security given to the satisfaction of the managers, to be disbursed for the benefit of the pensioners without deduction for fines or penalties under regulations to be established by the managers of the home; said payment to be made by the pension agent upon a certificate of the proper officer of the home that the pensioner is an inmate thereof, and is still living. Any balance of the pension which may remain at the date of the pensioner's discharge shall be paid over to him; and in case of his death at the home, the same shall be paid to his widow, or children, or, in default of either, to his legal representatives. (Approved, February 26, 1881.)

The provisions of section 5485 of the Revised Statutes shall be applicable to any person who shall violate the provisions of an act entitled "An act relating to claim agents or attorneys in pension cases," approved June 20, 1878. (Approved March 3, 1881.)

UNITED STATES BONDS.

That the Secretary of the Treasury may, at any time, apply the surplus money in the Treasury not otherwise appropriated, or so much thereof as he may consider proper, to the purchase or redemption of United States bonds. *Provided,* That the bonds so purchased or redeemed shall constitute no part of the sinking fund, but shall be cancelled. (Approved March 3, 1881.)

TERRITORIES.

That section 1,852 be, and the same hereby is, so amended as to read as follows:

"Sec. 1852. The sessions of the legislative assemblies of the several Territories of the United States shall be limited to sixty days' duration." [Approved December 23, 1880.]

GOLD AND SILVER PRODUCTION.

The gold and silver production for 1881 is reckoned at \$73,000,000, or \$3,000,000 more than for the previous year, the gain being in silver. California produced \$19,000,000 of gold, or 62 per cent, a gain in five years of 15 per cent. Dakota produced \$4,500,000, Colorado, Montana and Nevada being the other principal

sources. In silver Colorado stands at the head, with \$13,186,000, against \$14,960,000 the previous year. Nevada, \$7,790,000, against \$5,593,000. Arizona advanced from \$1,760,000 to \$6,860,000, and Utah increased from \$4,172,000 to \$5,020,000. Total of the world is about \$107,000,000 in gold and \$83,000,000 in silver.

CEREAL PRODUCTIONS.

Number of bushels of each crop of 1879, according to the Census of 1880.

The advance in production during the last decade amounts to nearly 100 per cent for all kinds of cereals, while the increase of the ten years preceding was but 12 per cent. The increase between 1850 and 1860 was 43 per cent. The wide difference in these periods is in a measure due to the failure of the crops in 1869, and a heavy yield in 1879. Seven-tenths of the wheat crop is produced in nine States, Illinois, Indiana, Ohio, Michigan, Minnesota, Iowa, California, Missouri and Wisconsin. Illinois, Iowa and Missouri are the three great corn States. Illinois, Iowa, New York and Pennsylvania lead in oats, and California and New York produce half the crop of barley.

Aggregate Republican plurality, 1880, 4,870; Democratic plurality, 1878, 12,649.

Several amendments to the Constitution were voted upon in April, 1880. They relate to the qualifications and residence of voters, equalize the fees of public officers, change the State election to November, strike the word "white" from the fourth article, strike out the words "no negro or mulatto shall have the right of suffrage," forbid incurring of debts beyond a certain limit by municipal corporations, and provide for the establishment of certain courts. They received majorities ranging from 17,116 to 49,982, the latter being for No. 9, relating to debts of corporations. They were all declared to be not adopted by the Supreme Court on the ground that they failed to receive the votes of a majority of the electors of the State, but were resubmitted in March, 1881, and again adopted by decided majorities, the total vote then cast being 172,915.

The vote for Attorney-General indicates more nearly the strength of the Readjuster and Funder parties than that for Governor, and the figures given above are certified as correct by the State Canvassers. The vote for Governor and Lieutenant-Governor was canvassed by a legislative committee and contains serious errors. The footings are as follows: Governor, Readj., 111,473; Funder, Dem., 99,757; Readj. maj., 11,716; Lieutenant-Governor, Readj., 11,259; Funder Dem., 99,629; scattering, 2,100; Readj. maj., 11,530.

POSTAL RATES AND REGULATIONS.

Domestic mail matter is divided into four classes :

- First—Written matter.
- Second—Periodical publications.
- Third—Miscellaneous printed matter.
- Fourth—Merchandise.

FIRST-CLASS MATTER embraces letters, postal cards, and all matter wholly or partly in writing and all matter sealed or closed against inspection, except as follows: 1. Corrected proof-sheets and manuscript copy accompanying the same. 2. Date and name of the addressed and of the sender of circulars, and the correction of mere typographical errors therein. 3. Bills, receipts, and orders for subscription inclosed in second-class publications, provided such bills, receipts, and orders shall be in such form as to convey no other information than the name, location, and subscription price of the publication or publications to which they refer. 4. The name and address of the person to whom second-class matter may be sent, and index figure of a subscription book, and words or figures, or both, indicating the date on which the subscription to such matter will end. 5. Upon matter of the third-class, or upon the wrapper inclosing the same, the sender may write his own name or address, with the word "from" above and preceding the same, and in either case may make simple marks, intended to designate a word or passage of the text, to which it is desired to call attention. 6. There may be placed upon the cover or blank leaves of any book, or of any printed matter of the third class, a simple manuscript dedication or inscription, such dedication or inscription must be confined to a simple address or consignment of such book, or other printed matter, as a mark of respect, and must not contain any thing that partakes of the nature of a personal correspondence. 7. Upon matter of the fourth class, the sender may

write his own name and address preceded by the word "from," and also the number and names of the articles inclosed. He may also write upon or attach to any such articles, by tag or label, a mark or number, name or letter, for purpose of identification.

POSTAGE on first-class matter, must be prepaid at the rate of three cents for each half ounce or fraction thereof; except that on "postal cards" the postage is one cent each, and on "local" or "drop-letters" postage is two cents per half ounce or fraction thereof, including delivery at letter-carrier offices, and one cent for each half ounce or fraction thereof, where free delivery by carrier is not established.

First-class matter, except postal cards or drop-letters, deposited in any post-office wholly unpaid, or having only a one cent or two cent stamp affixed, will be "held for postage," and unless the postmaster is able to communicate the fact to the sender, the package must be sent to the Dead-Letter Office. Should such wholly unpaid or insufficiently prepaid matter, through inadvertence, reach its destination, it is the duty of the delivering postmaster to collect on wholly unpaid matter *double postage*, and on insufficiently prepaid matter the ordinary letter rates, giving credit for the amount which may have been prepaid thereon.

Forwarding Letters Free.

Prepaid and free letters are forwarded from one post-office to another, at the request of the persons addressed, without additional postage. A letter which has been once delivered at its address can be remailed from the same office to which it was originally addressed to a new address without the prepayment of additional postage if it has not been opened. Drop-letters, when forwarded by mail to another post-office, must be prepaid at 3 cents per half ounce. No

mail matter, except letters or postal cards, can be forwarded to a new address except on prepayment of postage by stamps at regular rates.

Registration.

Mail matter of all kinds can be registered to any part of the United States and Territories and to foreign countries, on payment of a registration fee of 10 cents. All registration fees must be paid by stamps, and the postage on all registered matter must also be prepaid in full by stamps. The public are desired by the post-office never to send money or valuable articles in unregistered letters. Postmasters at all post-offices are obliged to register letters and packages when requested to do so.

SECOND-CLASS MATTER.

Regular publications—This class includes all newspapers, periodicals, or matter exclusively in print, and regularly issued at stated periods from a known office of publication or news-agency, except regular publications designed primarily for advertising purposes, or for free circulation, or for circulation at nominal rates. Second-class matter can only be mailed by publishers or newsdealers. Postage two cents a pound or fraction thereof. Weight of packages not limited.

THIRD-CLASS MATTER.

Mail-matter of the third class embraces books (printed and blank), transient newspapers and periodicals, circulars, and other matter wholly in print, proof-sheets and corrected proof-sheets and manuscript copy accompanying the same, hand-bills, posters, chromo-lithographs, engravings, envelopes with printing thereon, heliotype, lithographic and stereoscopic views, with title written thereon, printed blanks, printed cards; and reproductions from circulars or other matter produced by the electric pen, papyrograph, metallograph, hectograph, chirograph, or copygraph processes; and postage shall be paid thereon at the rate of one cent for each two ounces or fractional part thereof.

Upon matter of the third class, or upon the wrapper inclosing the same, the sender may write his own name or address, with the word "from" above and preceding the same, and in either case may make simple marks intended to designate a word or passage of the text to which it is desired to call attention. There may be placed upon the cover or blank leaves of any book or of any printed matter of the third class a simple manuscript dedication or inscription that does not partake of the nature of a personal correspondence.

The "nature of a personal correspondence" referred to in the preceding section cannot be ascribed to the following, viz.: 1st. To the signature of the sender or to the designation of his name, of his profession, of his rank, or the place of origin, and of the date of dispatch. 2d. To a dedication or mark of respect offered by the sender. 3d. To the figures or signs merely intended to mark the passage or a text, in order to call attention to them. 4th. To instructions or requests to postmasters to notify the sender in case of the nondelivery of matter, so that he may send postage for its return. Lastly, to annotations or corrections made upon proofs of printing or musical compositions, and relating to the text or to the execution of the work.

All packages of matter of the third class must be so wrapped, with open sides or ends, that their contents may be readily examined by postmasters.

The limit of weight of packages is four pounds, except in cases of single volumes of books in excess of said weight, and books and documents published or circulated by order of Congress, or official matter emanating from any of the departments of the government, or from the Smithsonian Institution.

FOURTH-CLASS MATTER.

Mailable matter of the fourth class embraces blank cards, card-board and other flexible material, flexible patterns, letter envelopes and letter-paper without printing thereon, merchandise, models, ornamented paper, sample cards, samples of ores, metals, minerals, seeds, cuttings bulbs, roots, scions, drawings, plans, designs, original paintings in oil or water colors, and any other matter not included in the first, second, or third classes, and which is not in its form or nature liable to destroy, deface or other-

wise damage the contents of the mail bag, or harm the person of any one engaged in the postal service. Postage rate thereon, one cent for each ounce or fractional part thereof.

Other articles of the fourth class which, unless properly secured, might destroy, deface, or otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service, may be transmitted in the mails when they conform to the following conditions: 1st. They must be placed in a bag, box, or removable envelope made of paper, cloth, or parchment. 2d. Such bag, box, or envelope must again be placed in a box or tube made of metal or some hard wood, with sliding, clasp, or screw lid. 3d. In case of articles liable to break, the inside box, bag, or envelope must be surrounded by sawdust, cotton, or spongy substance. 4th. In case of sharp-pointed instruments, the points must be capped or encased, so that they may not by any means be liable to cut through their inclosure; and where they have blades, such blades must be bound with wire, so that they shall remain firmly attached to each other. 5. The whole must be capable of easy inspection. Seeds or other articles not prohibited, which are liable, from their form or nature, to loss or damage, unless specially protected, may be put up in sealed envelopes, provided such envelopes are made of material sufficiently transparent to show the contents clearly, without opening.

Upon any package of matter of the fourth class the sender may write or print his own name and address, preceded by the word "from," and there may also be written or printed the number and names of the articles inclosed; and the sender thereof may write or print upon, or attach to any such articles, by tag or label, a mark, number, name, or letter, for purpose of identification.

The limit of weight of packages is four pounds.

UNMAILABLE.

Liquids, poisons, explosive and inflammable articles, fatty substances easily liquefiable, live or dead animals (not stuffed), insects, and reptiles, except queen-bees when safely secured, fruits or vegetable matter, confectionery, pastes or confections, and substances exhaling a bad odor; and every letter upon the envelope of which, or postal card upon which, indecent, lewd, obscene, or lascivious delineations, epithets, terms, or language may be written or printed, and all matter concerning lotteries, so-called gift concerts, or other similar enterprises offering prizes, or concerning schemes devised and intended to defraud the public, or for the purpose of obtaining money under false pretenses.

Postal Cards

may be procured at any post-office, at a cost of one cent each. The message, etc., must be always written on the back of the card. Nothing whatever must be attached to the card. Postal cards will be forwarded from one office to another, in case of removal of the person addressed, but will in no case be returned to the writer, nor advertised.

Domestic Money Orders

are issued at any money-order post-offices in the United States, payable at any other money-order post-office, in sums of not more than \$50. Larger amounts can be sent to the same person by additional orders. **RATES:** On orders not exceeding \$15, 10 cents; over \$15 and not exceeding \$30, 15 cents; over \$30 and not exceeding \$40, 20 cents; over \$40 and not exceeding \$50, 25 cents.

Foreign Money Orders.

At the principal money-order post-offices in the United States (including all the larger post-offices), money orders, payable at money-order post-offices in Great Britain, Ireland and Switzerland, may be procured at the following rates: On orders not exceeding \$10, 25 cents; over \$10 and not exceeding \$20, 50 cents; over \$20 and not exceeding \$30, 75 cents; over \$30 and not exceeding \$40, \$1; over \$40 and not exceeding \$50, \$1.25. Orders can also be obtained on Germany at the following rates: On orders not exceeding \$5, 15 cents; over \$5 and not exceeding \$10, 25 cents; over \$10 and not exceeding \$20, 50 cents; over \$20 and not exceeding \$30, 75 cents; over \$30 and not exceeding \$40, \$1; over \$40 and not exceeding \$50, 1.25.

TERMS OF THE COURT OF APPEALS.

Regular term, January 16th, 1882, with such recesses from time to time as the court may direct.

Justices of the Supreme Court.

The Supreme Court consists of thirty-four Justices. The State is divided into eight judicial districts, and four Justices are elected in each, except the first and second, which each elect five. Elections for Justices of the Supreme Court are held every alternate odd year. As fast as the terms of Justices expire, elections take place for a term of fourteen years. For General Term purposes, the State is divided into Judicial Departments. The Governor designates the Justices to hold the General Terms. In each department there is a Presiding Justice, who holds office during the term for which he was elected to the bench, and two associates, who hold office for five years, unless the terms for which they were elected sooner expire. The Justices receive a salary of \$5,000 per annum, and an annual allowance for expenses.

NEW YORK LEGISLATURE.

SENATE.

The Senate consists of 32 members, who are elected in November of every alternate odd numbered year, and hold their offices for two years from the first of January next succeeding. The State is divided into 32 districts, each electing one Senator. The Senators receive an annual salary of \$1,500, and also \$1 for each ten miles of travel in going to or returning from the place of meeting once in each session. Ten dollars per day in addition is allowed when the Senate alone is convened in extraordinary session, or when acting as a court for the trial of impeachments. The Lieutenant-Governor is *ex-officio* President of the Senate.

GEORGE G. HOSKINS (Rep.), *President*.

CHARLES L. MACARTHUR (Rep.), of Troy. Mr. M. was born in Claremont, N. H., January 1, 1824, of Scotch parentage on his father's side and New England on the mother's. He was educated at common schools and at Black River Institute, Watertown, and is also a graduate of the printing office; is editor of the *Troy Northern Budget*. Since early life he has been connected with journalism, as reporter, editor and publisher. Previous to his connection with the *Budget* he acted as reporter on the *Detroit Free Press*, *New York Sun*, and other papers. In 1847, with Hon. John M. Francis, he purchased the *Troy Daily Budget*, and continued with it until 1859, visiting Europe meantime and writing a series of letters. He then established the *Troy Daily Arena*, but sold it in 1861 to enter the army. Taking a prominent part in the organization of the Second New York volunteers, he was appointed Regimental Quartermaster, with the rank of First Lieutenant. The regiment was the first to cross into Virginia from Fortress Monroe. He was appointed Captain and Assistant Quartermaster in the Regular Army by President Lincoln; served as Brigade, Division and Corps

Quartermaster, received Brevet promotion to Colonel from Gov. Fenton, and participated in most of the campaigns and battles in the Virginia peninsula. In the fall of 1864 he established the *Troy News*, the pioneer of Sunday papers in this State outside of New York, and relinquished it in 1866 to become one of the editors and proprietors of the *Troy Daily Whip*. The *Daily Budget* having died during the war, in 1869 he re-established the *Northern Budget* as a Sunday journal, and has successfully conducted it until the present time, now having his son associated with him in the management of the paper. Mr. M. was a Free Soiler in 1848, and remained a Democrat until the opening of the war. He was a member of the Democratic Central Committee several years, a Delegate to the National Convention of 1856, and frequently a Delegate to State Conventions. He was Alderman of the second ward of Troy, and for a number of years, under Democratic rule, was Collector of the port of Troy. Since 1860 he has been a Republican, and continued to hold the Collectorship until the office was abolished. He was elected to the Senate by a majority of 1,142 over Lyman H. Northup (Dem.) The Republican plurality in 1879 was 2,499. Mr. M. ran largely ahead of his ticket in both counties of his district.

POLITICAL DOCUMENTS.

PARTY PLATFORMS.

Republican.

Adopted at New York, October 5, 1881.

The Republicans of New York declare as follows:

First. That we unite with our fellow citizens throughout the Union in deploring the incalculable calamity which has befallen the country in the death of the late President, James Abram Garfield. Under the kindly influence of American institutions, and by the force of noble manhood, he rose from the humblest walk of life to the highest earthly station. By manliness and gentleness of nature; by loftiness of public spirit and disciplined intelligence for public affairs; by strength of political conviction, blended with singular moderation of temper and urbanity of expression—above all by that rare and noble temper which dares to be just, and which alone composes angry States, reconciles parties and secures wise reform, he was singularly fitted for the great office to which he was elevated by the free choice of his fellow-citizens. The opening of his Administration had won the confidence of the country by completing the refunding of the public debt, by exposing a vast system of public robbery and by hastening the prosecution of the robbers, by its frank declaration of the intention to ask the aid of Congress to restore the conduct of the public business to business principles, and by its triumphant vindication of the constitutional authority of the Executive office. Suddenly stricken by a mortal blow, he lay face to face with death for eighty days with such sublime serenity of courage, unquailing faith, cheerful patience and gracious courtesy that the heart of Christendom beat with sympathy and admiration and brought every nation to our side as friends and brothers. Already his name shines among the world's heroes, and it is written upon American hearts with the names of Washington and Lincoln. Cherishing the memory of his brave, simple, manly character, inspired by his lofty aims and unsullied life, and impressively warned by the circumstances of his assassination, we pledge ourselves anew to the great National objects to which the late President was devoted, and which are now bequeathed to the party that he so patriotically served, and of whose name and fame he was so justly proud. We respectfully offer to the venerable mother, the devoted wife and the bereaved children of the late President the assurance of our deep and tender sympathy in a sorrow which only Divine power can console, but which has all the alleviation that the spotless memory of the dead, the tearful gratitude of the country, and the sincere grief of the world can afford.

Secondly. That we have entire confidence in the ability, integrity and patriotic intention of Chester A. Arthur, President of the United States; that his life-long record gives earnest of his fidelity and devotion to the cause and principles of the Republican party; and, believing that he will carry out the views expressed by him in his inaugural address, and that his administration will be in line with that of his lamented predecessor, in accord with the clearly defined principles and policy of the Republican party, and in harmony with the just expectations of those who gave him their suffrages for the high and responsible office to which he was elected, we tender to him our entire confidence and cordial support. His manly bearing and sympathetic acts in the time of National affliction command our respect and admiration.

Thirdly. That the triumphs of Republican management of the National finances are being constantly maintained, as shown by the payment of more than \$17,000,000 public debt during the month

of September; and by the reduction of the annual interest to less than \$62,000,000, while the surplus revenues justify the reduction of the taxes at an early day; and that this duty Congress should approach with due regard to the protection of American industry, and with the aim to reduce the number of tax gatherers, and remove occasion for offensive and costly litigation.

Fourthly. That those who conspire to defraud the Government are the worst enemies of the party to which they belong, and the Republican party has among its strongest claims to popular gratitude the war which it has waged against the corruption which grew out of the expenditures consequent on the Rebellion, the punishment which it has meted out to dishonest officials of whatever rank, and its persistent vigor in favor of economical and honest administration. The abuses and prosecution of the abuses connected with the Star Routes in the Post-office Department redound to the credit of President Garfield, and in pressing the prosecution to the full satisfaction of justice, President Arthur may be assured of the hearty approval of the people.

Fifthly. That we pledge president Arthur our earnest support in every effort for the enforcement of Civil Service reform, recognizing as we do the fact that abuses in connection with the dispensation of official patronage may be largely eliminated, if not wholly removed, by wise and practicable methods of administration.

Sixthly. That the wisdom, prudence and economy shown by Governor Alonzo B. Cornell during his administration of the affairs of the State entitle him to the thanks and gratitude of the people. His careful scrutiny of legislation, his judicious exercise of the veto power, his persistent enforcement of the principles of retrenchment, and his fearless discharge of all the duties of his office, have, in the development of the best qualities of practical statesmanship, vindicated the wisdom of his election.

Seventhly. That as the Republican party has always been identified with whatever was deemed essential to the maintenance of the commercial supremacy of the State, we are in favor of submitting to the people the question of making our cauals practically free.

Eighthly. That we are in favor of an equitable system of taxation that will reach corporations as well as individuals, and that we are opposed to all monopolies that oppress the people or unfairly discriminate against local interests.

Democratic.

Adopted at Albany, October 12, 1881.

The Democratic party of New York again declares its fidelity to the principles set forth by the New York State Democratic Conventions of 1874, 1875 and 1876, which were thrice approved at the ballot boxes by the people of the Empire State, and were vindicated by the wise administration of the Democratic State Executives then chosen, and to the principles set forth by the National Democratic Convention at St. Louis, which were approved by decisive, popular and electoral majorities in the Presidential election of 1876. The victories then won in this State and in the United States were in the name and for the sake of reform. The people were defrauded of the fruits of victory in the Federal elections by the false count of the electoral votes in 1876 and flagrant corruption in the election of 1880. Reform throughout the Federal administration is still a necessity. The continuing disclosures of new and hitherto concealed plundering of the people's fund by inner rings in the Treasury, the Post-office, and the Interior depart-

ments, demonstrate that reform is now more than ever a necessity. It remains for the National Democratic party to restore the Federal Government to the fraternal spirit, the constitutional principles, the frugal expenditure and the administrative purity of the fathers of the Republic. It remains likewise for the Democracy of the State of New York, and it is their first political duty, to resume and carry on to a successful completion in all departments of its government the great measures and policy of administrative reform which between 1874 and 1876 reduced by one-half the burden of our State taxation, and which then and during the three succeeding years established throughout the Executive departments vigor, economy and fidelity to public trusts. To that immediate duty this Convention pledges the united efforts of the Democracy of New York, and the loyal devotion of the nominees whom it shall commend to the choice of their fellow-citizens.

The assassination of the late President of the United States was a crime against authority, against free institutions and against humanity. We deplore and denounce the crime in all its public and private aspects. We extend, as citizens, our most profound condolence to the family of the murdered Chief Magistrate, and regard with great gratification the universal expressions of sympathy extended by all nations and peoples.

We renew the expression of our demand for the refunding of the National debt at the lowest possible rate of interest. The New York Democracy, as always, stand by gold and silver as the legal tender of the Constitution, and by the doctrine that all paper mediums of money must be based on those metals, at the standard values of the world. We demand the payment of principal and interest of every dollar of public indebtedness. "Readjustment" is repudiation. The act of the Northern Republican leaders in giving the support of that party to repudiation in Virginia, Mississippi, Minnesota and other States, is a national disgrace, dangerous as a precedent and destructive of the public credit. We call upon the Democrats in Congress to maintain the standard of retrenchment by which their Democratic predecessors reduced the Federal expenses \$40,000,000 in a year. We demand a thorough and immediate investigation into the Star Route and other frauds upon the National Treasury, and a vigorous prosecution, already too long delayed, of all of the participants, both high and low, in these grave crimes, whereby the moneys of the people were stolen from the Treasury and the plunderers were made to provide a corruption fund which was used to carry the last Presidential election for the Republican party.

We endorse and applaud the united and honest action for Democratic principles and candidates of the fifty-four Democratic members of the last Legislature. They honored their State, their party, and themselves. We denounce the Republican majority, because that majority defeated every measure of transportation reform at the bidding of its masters, the corporations. It enacted jobs directly increasing the public burdens by millions. It failed to meet the urgent question of assessment and taxation reform. It refused the demand of the State for a feasible and enforceable Excise law. It left the farmers of New York where the action of the Governor placed them, at the mercy of the oleomargarine ring. It struck hands, for political greed, with the abettors of disease and death in the metropolis. It prolonged the session of the Legislature far into the summer at an aggregate expense of \$200,000 to the people. It became in a factional struggle of placemen the participant in scandals and crimes which brought dishonor and disgrace upon the good name of our State. When the Republican Legislature adjourned the people rejoiced as if delivered from a pestilence, and the officers of the law were obliged to begin the work of prosecuting the briberies and perjuries committed by corrupt leaders of that party while playing their vocation in the Capital of the State.

We are in favor of such a reform by legislative enactment, as well as by administrative action, in the Civil Service of the country as will substitute for

the present periodical scramble for spoils a wise system of appointment and promotion, by which the incumbency of subordinate offices shall be regulated by law and depend only upon capacity and character, and demand that no assessments shall be levied upon public officers for political purposes.

The public welfare demands that the various questions relating to chartered monopolies and the methods of transportation should be met and decided, and we are in favor of the adoption of measures to restrict the growing power of such monopolies. They should be subjected to the supervision of commissioners established by public authority. All unjust discriminations in the transportation of passengers and merchandise should be prohibited. The charges of corporations which have taken the property of private citizens for public use should be limited to the cost of service with a reasonable profit, instead of the mercenary exaction "of all the traffic will bear."

We approve of the unanimous action of the Democratic members of the last Legislature in providing for the early submission to the people of an amendment to the Constitution in favor of free canals.

The Democratic party, now and always unalterably opposed to the centralization of power in either the State or Federal Governments, hereby requests its representatives in the Legislature to provide and make effective an amendment to the Constitution which shall extend the principle and the powers of local self-government to the cities of the State.

To the record of the Democracy of New York we point with confidence. We challenge a comparison of its record with that furnished by the factions which were once the Republican party of this State.

To the candidates of this Convention we pledge a hearty support, and we confidently submit our action, as the representatives of a free Democracy, to the good people of this Commonwealth, for their verdict at the polls.

Greenback.

Adopted at Elmira, August 24, 1881.

The seventeen years of peace which have elapsed since the war prove that neither the Republican nor the Democratic party can restore harmony, confidence or good feeling between the people of the North and South; that while these parties exist the country will remain divided into two great hostile political camps, in both of which the people will be governed by sectional prejudice instead of reason and judgment, because the people of the South hate the Republican party for the wrongs they claim that party has brought upon their section, while the people of the North despise the Democratic party for its cowardice on all questions of public interest and its utter lack of fixed principles or policy. During these years no united effort has been made by either of these parties to correct the abuses of corporations or restrain their corrupting influence over legislation; and during much of this time honest labor was unemployed and forced to idleness and want because both united in a policy of contracting the currency to such an extent as rendered the profitable employment of labor impossible. During this time land monopolists have been permitted to obtain control of nearly all the valuable public lands, but no laws have been proposed by either of these parties for the protection of actual settlers or which guarantee citizens their right to vote and have their votes honestly counted. Under such circumstances the organization and success of a new party based on questions of present interest to the entire people, and recognizing the changed conditions incorporated capital has brought upon the country—a party which shall be in accord with the principles and theories of liberty laid down by the founders of our Government—must precede any just, wise or beneficial legislation for the American people; therefore,

Resolved. That the platform of principles adopted by the Convention of the National Greenback-Labor party, held in Chicago, June 9, 1880, embracing the following demands:

The unification of the people of the whole country; the overthrow of all monopolies by the resumption by the Government of the power to issue and control the money of the people, and by a Government control of railroads and other transportation corporations; the just payment of our National debt according to the laws under which it was contracted; the protection of labor by the establishment of an honest fiscal and financial system, and by securing to every citizen the inalienable right to the soil, and the general administration of the government in the interest of the producing many, instead of, as at present, the non-producing few—is one under which all citizens desiring to accomplish these reforms can unite under the banner of that political party which first presented them as questions to be settled by American citizens.

Resolved, first. That all the money paid to railroad companies for transporting persons or property in excess of what is required to pay the legitimate expenses of operating such roads and a fair return on their actual cost, is in violation of the fundamental law of public use which allows railroads to be built, and should immediately be prohibited by legislative enactment.

Second. That railroad companies should be prohibited by law from charging more for transporting property during the season when water navigation is closed than they charge for like services during the season of open-water navigation.

Third. That we work for the lawful suppression of any traffic or custom that encourages crime.

Fourth. That this Convention recognizes the National Greenback Party as the original anti-monopoly organization of the country, and, as such, extends the hand of sympathy to the anti-monopoly

leagues for the public service they are rendering in educating the people on one of the questions contained for years in our platform.

Fifth. That the Government should exchange its legal-tender notes for any of its interest bearing debts at par on demand and for gold or silver bullion or coin at their legal weight values.

Sixth. That we recognize the fact that all chief executive officers should have entire control of the selection and appointment of their assistants, to the end that the administrative machinery may work harmoniously; but for the purpose of relieving both State and National politics from the odium of executive interference, we demand that all persons performing executive service for the State or General Government shall be deprived of the elective franchise during the period of such service.

Seventh. That we protest against the proposed sale of public lands in Minnesota, as advertised by the Secretaries of the Treasury and Interior, except to actual settlers and in parcels not exceeding 120 acres.

Eighth. That as the Irish people are battling for the same rights that are gradually being wrested from us, we extend to them and all others our sympathy and aid, and bid them God-speed in their battle against tyranny.

Ninth. That we regard the attempted assassination of the President of the United States as an outrage which deserves the universal condemnation of every American citizen.

Tenth. That we extend to the family of the President our sincere sympathy in this hour of their great affliction, and sincerely hope that the dutiful son, the devoted and affectionate father, will soon be restored in health to the bosom of his family.

INAUGURAL ADDRESSES, ETC.

President Garfield's Inaugural.

Delivered March 4, 1881.

FELLOW-CITIZENS: We stand to-day upon an eminence which overlooks a hundred years of national life—a century crowded with perils, but crowned with the triumphs of liberty and law. Before continuing the onward march, let us pause on this height for a moment to strengthen our faith and renew our hope by a glance at the pathway along which our people have traveled.

It is now three days more than a hundred years since the adoption of the first written Constitution of the United States—the articles of confederation and perpetual union. The new Republic was then beset with danger on every hand. It had not conquered a place in the family of nations. The decisive battle of the war for independence, whose centennial anniversary will soon be gratefully celebrated at Yorktown, had not yet been fought. The colonists were struggling not only against the armies of a great nation but against the settled opinions of mankind; for the world did not then believe that the supreme authority of government could be safely intrusted to the guardianship of the people themselves.

We cannot overestimate the fervent love of liberty, the intelligent courage, the sum of common sense with which our fathers made the great experiment of self-government. When they found, after a short trial, that the Confederacy of States was too weak to meet the necessities of a vigorous and expanding Republic, they boldly set it aside, and in its stead established a national Union, founded directly upon the will of the people, endowed with full power of self-preservation and ample authority for the accomplishment of its great object.

Under this Constitution the boundaries of freedom have been enlarged, the foundations of order and peace have been strengthened, and the growth of our people in all the better elements of national life has indicated the wisdom of the founders and given new hope to their descendants. Under this Constitution our people long ago made themselves safe against

danger from without, and secured for the mariners and flag equality of rights on all the seas. Under this Constitution twenty-five States have been added to the Union, with constitutions and laws, framed and enforced by their own citizens, to secure the manifold blessings of local self-government.

The jurisdiction of this Constitution now covers an area fifty times greater than that of the original thirteen States, and a population twenty times greater than that of 1780.

The supreme trial of the Constitution came at last under the tremendous pressure of civil war. We ourselves are witnesses that the Union emerged from the blood and fire of that conflict purified and made stronger for all the beneficent purposes of good government.

And now, at the close of this first century of growth, with the inspirations of its history in their hearts, our people have lately reviewed the condition of the nation, passed judgment upon the conduct and opinions of political parties, and have registered their will concerning the future administration of the Government. To interpret and to execute that will in accordance with the Constitution is the paramount duty of the Executive.

Even from this brief review it is manifest that the Nation is resolutely facing to the front, resolved to employ its best energies in developing the great possibilities of the future. Sacredly preserving whatever has been gained to liberty and good government during the century, our people are determined to leave behind them all those bitter controversies concerning things which have been irrevocably settled, and the further discussion of which can only stir up strife and delay the onward march.

The supremacy of the Nation and its laws should be no longer a question of debate. The discussion which for half a century threatened the existence of the Union was closed at last in the high court of war by a decree from which there is no appeal, that the Constitution and the laws made in pursuance thereof are and shall continue to be the supreme law of the land, binding alike upon the States and the people. This decree does not disturb the autonomy of the States nor interfere with any of their

necessary rights of local self-government, but it does fix and establish the permanent supremacy of the Union.

The will of the Nation speaking with the voice of battle and through the amended Constitution, has fulfilled the great promise of 1776 by proclaiming "liberty throughout the land to all the inhabitants thereof."

The elevation of the negro race from slavery to the full rights of citizenship is the most important political change we have known since the adoption of the Constitution of 1787. No thoughtful man can fail to appreciate its beneficent effect upon our institutions and people. It has freed us from the perpetual danger of war and dissolution. It has added immensely to the moral and industrious forces of our people. It has liberated the master as well as the slave from a relation which wronged and enfeebled both. It has surrendered to their own guardianship the manhood of more than 5,000,000 of people, and has opened to each one of them a career of freedom and usefulness. It has given new inspiration to the power of self-help in both races, by making labor more honorable to the one and more necessary to the other. The influence of this force will grow greater and bear richer fruit with the coming years.

No doubt this great change has caused serious disturbance to our Southern communities. This is to be deplored, though it was perhaps unavoidable. But those who resisted the change should remember that, under our institutions, there was no middle ground for the negro race between slavery and equal citizenship. There can be no permanent disfranchised peasantry in the United States. Freedom can never yield its fullness of blessings so long as the law or its administration places the smallest obstacle in the pathway of any virtuous citizen.

The emancipated race has already made remarkable progress. With unquestioning devotion to the Union, with a patience and gentleness not born of fear, they have "followed the light as God gave them to see the light." They are rapidly laying the material foundations of self-support, widening their circle of intelligence, and beginning to enjoy the blessings that gather around the homes of the industrious poor. They deserve the generous encouragement of all good men. So far as my authority can lawfully extend, they shall enjoy the full and equal protection of the Constitution and the laws.

The free enjoyment of equal suffrage is still in question, and a frank statement of the issue may aid in its solution. It is alleged that in many communities negro citizens are particularly denied the freedom of the ballot. In so far as the truth of this allegation is admitted, it is answered that in many places honest local government is impossible if the mass of "uneducated negroes are allowed to vote. These are grave allegations. So far as the latter is true, it is the only palliation that can be offered for opposing the freedom of the ballot. Bad local government is certainly a great evil, which ought to be prevented; but to violate the freedom and sanctities of the suffrage is more than an evil. It is a crime, which if persisted in, will destroy the Government itself. Suicide is not a remedy. If in other lands it be high treason to compass the death of the King, it shall be counted no less a crime here to strangle our sovereign power and stifle its voice.

It has been said that unsettled questions have no pity for the repose of nations. It should be said with the utmost emphasis that this question of the suffrage will never give repose or safety to the States or to the Nation, until each, within its own jurisdiction, makes and keeps the ballot free and pure by the strong sanctions of the law.

But the danger which arises from ignorance in the voter cannot be denied. It covers a field far wider than that of negro suffrage and the present condition of the race. It is a danger that lurks and hides in the sources and fountains of power in every State. We have no standard by which to measure the disaster that may be brought upon us by ignorance and vice in the citizens when joined to corruption and fraud in the suffrage.

The voters of the Union who make and unmake Constitutions, and upon whose will hang the destinies of our governments, can transmit their supreme authority to no successors save the coming generation of voters, who are the sole heirs of sovereign power. If that generation comes to its inheritance blinded by ignorance and corrupted by vice, the fall of the Republic will be certain and remediless.

To the South this question is of supreme importance, but the responsibility for the existence of slavery did not rest upon the South alone. The Nation itself is responsible for the extension of the suffrage, and is under special obligations to aid in removing the illiteracy which it has added to the voting population. For the North and South alike, there is but one remedy. All the constitutional power of the nation and of the States, and all the volunteer forces of the people should be summoned to meet this danger by the saving influence of universal education.

It is the high privilege and sacred duty of those now living to educate their successors and fit them, by intelligence and virtue, for the inheritance which awaits them.

In this beneficent work sections and races should be forgotten, and partisanship should be unknown. Let our people find a new meaning in the divine oracle which declares that "A little child shall lead them," for our own little children will soon control the destinies of the Republic.

My countrymen, we do not now differ in our judgment concerning the controversies of past generations, and fifty years hence our children will not be divided in their opinions concerning our controversies. They will surely bless their fathers and their fathers' God that the Union was preserved, that slavery was overthrown, and that both races were made equal before the law. We may hasten or we may retard, but we cannot prevent this final reconciliation. It is not possible for us now to make a truce with time by anticipating and accepting its inevitable verdict. * * *

The prosperity which now prevails is without parallel in our history. Fruitful seasons have done much to secure it, but they have not done all. The preservation of the public credit and the resumption of specie payments so successfully attained by the administration of my predecessors has enabled our people to secure the blessings which the seasons brought.

By the experience of commercial nations in all ages, it has been found that gold and silver afford the only safe foundation for a monetary system. Confusion has recently been created by variations in the relative value of the two metals. But I confidently believe that arrangements can be made between the leading commercial nations which will secure the general use of both metals. Congress should provide that the compulsory coinage of silver now required by law may not disturb our monetary system by driving the other metal out of circulation. If possible such an adjustment should be made that the purchasing power of every coined dollar will be exactly equal to its debt-paying power in all the markets of the world.

The chief duty of the National Government, in connection with the currency of the country, is to coin money and declare its value. Grave doubts have been entertained whether Congress is authorized by the Constitution to make any form of paper money legal tender. The present issue of United States notes has been sustained by the necessities of war, but such paper should depend for its value and currency upon its convenience in use and its prompt redemption in coin at the will of the holder, and not upon its compulsory circulation. These notes are not money, but promises to pay money. If the holders demand it the promise should be kept.

The refunding of the National debt at a lower rate of interest should be accomplished without compelling the withdrawal of the National bank notes, and thus disturbing the business of the country.

I venture to refer to the position I have occupied on financial questions during a long service in Congress, and to say that time and experience have

strengthened the opinions I have so often expressed on these subjects.

The interests of agriculture deserve more attention from the Government than they have yet received. The farms of the United States afford homes and employment for more than one-half our people, and furnish much the largest part of all our exports. As the Government lights our coasts for the protection of mariners and the benefit of commerce, so it should give to the tillers of the soil the best lights of practical science and experience.

Our manufactures are rapidly making us industrially independent, and are opening to capital and labor new and profitable fields of employment. Their steady and healthy growth should still be maintained. Our facilities for transportation should be promoted by the continued improvement of our harbors and great interior water-ways and by the increase of our tonnage on the ocean.

The development of the world's commerce has led to an urgent demand for shortening the sea voyage around Cape Horn by constructing ship canals or railways across the isthmus which unites the continents. Various plans to this end have been suggested and will need consideration; but none of them has been sufficiently matured to warrant the United States in extending pecuniary aid. The subject, however, is one which will immediately engage the attention of the Government with a view to a thorough protection to American interests. We will urge no narrow policy nor seek peculiar or exclusive privileges in any commercial route; but in the language of my predecessor, I believe it to be the right "and duty of the United States to assert and maintain such supervision and authority over any inter-oceanic canal across the Isthmus that connects North and South America as will protect our National interests."

The Constitution guarantees absolute religious freedom. Congress is prohibited from making any law respecting an establishment of religion or prohibiting the free exercise thereof. The Territories of the United States are subject to the direct legislative authority of Congress; and hence the General Government is responsible for any violation of the Constitution in any of them. It is, therefore, a reproach to the Government that in the most populous of the Territories the constitutional guarantee is not enjoyed by the people and the authority of Congress is set at naught. The Mormon Church not only offends the moral sense of manhood by sanctioning polygamy, but prevents the administration of justice through ordinary instrumentalities of law.

In my judgment, it is the duty of Congress, while respecting to the uttermost the conscientious convictions and religious scruples of every citizen, to prohibit within its jurisdiction all criminal practices, especially of that class which destroy the family relations and endanger social order. Nor can any ecclesiastical organization be safely permitted to usurp in the smallest degree the functions and powers of the National Government.

The civil service can never be placed on a satisfactory basis until it is regulated by law. For the good of the service itself, for the protection of those who are intrusted with the appointing power against the waste of time and obstruction to the public business caused by the inordinate pressure for place, and for the protection of incumbents against intrigue and wrong, I shall, at the proper time, ask Congress to fix the tenure of the minor offices of the several Executive Departments, and prescribe the grounds upon which removals shall be made during the terms for which incumbents have been appointed.

Finally, acting always within the authority and limitations of the Constitution, invading neither the rights of the States nor the reserved rights of the people, it will be the purpose of my administration to maintain the authority of the Nation in all places within its jurisdiction; to enforce obedience to all the laws of the Union in the interests of the people; to demand rigid economy in all the expenditures of the Government; and to require the honest and faithful service of all executive officers, remembering that the offices were created, not for the

benefit of incumbents or their supporters, but for the service of the Government.

And now, fellow-citizens, I am about to assume the great trust which you have committed to my hands. I appeal to you for that earnest and thoughtful support which makes this Government in fact, as it is in law, a Government of the people.

I shall greatly rely upon the wisdom and patriotism of Congress and of those who share with me the responsibilities and duties of administration. And above all, upon our efforts to promote the welfare of this great people and their Government, I reverently invoke the support and blessing of Almighty God.

[President Garfield was shot by Charles J. Guiteau in the Baltimore and Potomac Railroad depot on the 2d of July, 1881, and died at Elberon from the effects of the wound on the 19th of September. The oath of office was administered to Vice-President Arthur, in New York, on the following day, and he immediately assumed the duties of President. On the 22d of September, Gen. Arthur again qualified before Chief Justice Waite of the Supreme Court.]

President Arthur's Inaugural.

Delivered September 22, 1881.

For the fourth time in the history of the Republic its chief magistrate has been removed by death. All hearts are filled with grief and horror at the hideous crime which has darkened our land, and the memory of the murdered President, his protracted sufferings, his unyielding fortitude, the example and achievements of his life and the pathos of his death, will forever illumine the pages of our history.

For the fourth time the officer elected by the people and ordained by the Constitution to fill a vacancy so created is called to assume the Executive Chair. The wisdom of our fathers, foreseeing even the most dire possibilities, made sure that the Government should never be imperilled because of the uncertainty of human life. Men may die, but the fabric of our free institutions remains unshaken. No higher or more assuring proof could exist of the strength and permanence of popular government than the fact that though the chosen of the people be stricken down, his constitutional successor is peacefully installed without shock or strain, except the sorrow which mourns the bereavement. All the noble aspirations of my lamented predecessor, which found expression in his life, the measures devised and suggested during his brief administration to correct abuses and enforce economy, to advance prosperity and promote the general welfare, to insure domestic security and maintain friendly and honorable relations with the nations of the earth, will be garnered in the hearts of the people, and it will be my earnest endeavor to profit and to see that the Nation shall profit by his example and experience. Prosperity blesses our country. Our fiscal policy is fixed by law, is well grounded and generally approved. No threatening issue mars our foreign intercourse, and the wisdom, integrity and thrift of our people may be trusted to continue undisturbed the present assured career of peace, tranquillity and welfare. The gloom and anxiety which have enshrouded the country must make repose especially welcome now. No demand for speedy legislation has been heard, no adequate occasion is apparent for an unusual session of Congress. The Constitution defines the functions and powers of the Executive as clearly as those of either of the other two departments of the Government, and he must answer for the just exercise of the discretion it permits and the performance of the duties it imposes. Summoned to these high duties and responsibilities, and profoundly conscious of their magnitude and gravity, I assume the trust imposed by the Constitution, relying for aid on divine guidance and the virtue, patriotism and intelligence of the American people.

Extracts from President Arthur's First Message.

Transmitted December 6, 1881.

PRESIDENT GARFIELD'S DEATH.—An appalling calamity has befallen the American people since their chosen representatives last met in the halls where you are now assembled. We might else recall with unalloyed content the rare prosperity with which throughout the year the nation has been blessed. Its harvests have been plentiful; its varied industries have thriven; the health of its people has been preserved. It has maintained with foreign governments undisturbed relations of amity and peace. For these manifestations of His favor we owe to Him, who holds our destiny in His hands, the tribute of our grateful devotions. To that mysterious exercise of His will which has taken from us the loved illustrious citizen who was but lately at the head of the nation, we bow in sorrow and submission. The memory of his exalted character, of his noble achievements and of his patriotic life will be treasured for ever as a sacred possession of the whole people. The announcement of his death drew from foreign governments and peoples tributes of sympathy and sorrow, which history will record as a signal token of the kinship of nations and the federation of mankind.

CONTINUED BONDS.—The bill for refunding having failed to become a law, the Secretary of the Treasury in April last notified the holders of the \$199,690,400 six per centum bonds, then outstanding, that the bonds would be paid at par on the first day of July following, or that they might be continued at the pleasure of the government, to bear interest at the rate of $3\frac{1}{2}$ per centum per annum. Under this notice \$178,055,350 of the six per centum bonds were continued at the lower rate, and \$17,635,250 were redeemed. In the month of May a like notice was given respecting the redemption or continuance of the \$439,841,350 of five per centum bonds then outstanding, and of these \$401,504,900 were continued at three and one-half per centum per annum, and \$38,336,450 redeemed. The six per centum bonds of the loans of February 8, 1861, and of the Oregon war debt, amounting together to \$14,125,800, having matured during the year, the Secretary of the Treasury gave notice of his intention to redeem the same, and such as have been presented have been paid from the surplus revenues. There have also been redeemed at par \$16,179,100 of the three and one-half per centum "Continued" bonds, making a total of the bonds redeemed, or which have ceased to bear interest during the year, of \$123,969,650.

REDUCTION OF TAXES.—I concur in recommending the abolition of all internal revenue taxes, except those upon tobacco in its various forms, and upon distilled spirits and fermented liquors, and except also the special tax upon the manufacturers of and dealers in such articles. The retention of the latter tax is desirable as affording the officers of the Government a proper supervision of these articles for the prevention of fraud. I agree with the Secretary of the Treasury that the law imposing a stamp tax upon matches, proprietary articles, playing cards, checks and drafts, may, with propriety, be repealed, and the law also by which banks and bankers are assessed upon their capital and deposits.

THE TARIFF.—The tariff laws also need revision,

but that a due regard may be paid to the conflicting interest of our citizens. Important changes should be made with caution. If a careful revision cannot be made at this session, a commission such as was lately approved by the Senate and is now recommended by the Secretary of the Treasury, would doubtless lighten the labors of Congress, whenever this subject shall be brought to its consideration.

THE INDIANS.—I recommend the passage of an act making the laws of the various States and Territories applicable to the Indian reservations within their borders, and extending the laws of the State of Arkansas to the portion of the Indian territory not occupied by the five civilized tribes. The Indian should receive the protection of the law. He should be allowed to maintain in court his rights of person and property. * * * The enactment of a general law permitting the allotment in severalty to such Indians at least as desire it of a reasonable quantity of land secured to them by patent, and for their own protection made inalienable for twenty or twenty-five years, is demanded for their present welfare and their permanent advancement. * * * I advise a liberal appropriation for the support of Indian schools, because of my confident belief that such a course is consistent with the wisest economy.

POLYGAMY.—I recommend also the passage of an act, providing that in the territories of the United States, the fact that a woman has been married to a person charged with bigamy shall not disqualify her as a witness upon his trial for that offense. I further recommend legislation by which any person solemnizing a marriage in any of the territories shall be required under stringent penalties for neglect or refusal to file a certificate of such marriage in the Supreme Court of the territory, unless Congress may devise other practical measures for obviating the difficulties which have hitherto attended the efforts to suppress the iniquity. I assure you of my determined purpose to co-operate in any lawful and discreet measures which may be proposed to that end.

CIVIL SERVICE REFORM.—It may be that before we confine ourselves upon this important question within the stringent bounds of statutory enactment, we may profitably await the result of further inquiry and experiment. The submission of a portion of the nominations to a central board of examiners selected solely for testing the qualifications of applicants may, perhaps, without resort to the competitive test, put an end to the mischiefs which attend the present system of appointment, and it may be feasible to vest in such a board a wide discretion to ascertain the characteristics and attainments of candidates in those particulars which I have referred to as being no less important than mere intellectual attainment. If Congress should deem it advisable at the present session to establish competitive tests for admission to the service, no doubts such as have been suggested [as to the practicability of those tests] shall deter me from giving the measure my earnest support. And I urgently recommend, should there be a failure to pass any other act upon this subject, that an appropriation may be made for the enforcement of section 1,753 of the Revised Statutes. With the aid thus afforded me, I shall strive to execute the provisions of that law according to its letter and spirit.

PROPOSED CONSTITUTIONAL AMENDMENTS.

[The following proposed amendments, if adopted by the Legislature of 1882, will be submitted to the people for ratification at the general election, Nov. 7, 1882.]

THE CANALS.

Section three of article seven: § 3. The first and second sections of this article having been fully complied with, no tolls shall hereafter be imposed on persons or property transported on the canals, but all boats navigating the canals, and the owners and masters thereof, shall be subject to such laws and regulations as have been or may hereafter be enacted concerning the navigation of the canals. The legislature shall, annually, by equitable taxes, make

provision for the expenses of the superintendence and repairs of the canals. The canal debt contracted under the section hereby amended, which on the first day of October, 1880, amounted to eight million nine hundred and eighty-two thousand, two hundred dollars, shall continue to be known as the "canal debt under article seven, section three of the Constitution," and the sinking fund applicable to the payment thereof, together with the contributions to be made thereto, shall continue to be known as the "canal debt sinking-fund," and the principal and interest of said debt shall be met as provided in the fifth section of this article. All contracts for work or materials on any canals shall be made with the person who shall offer to do, or provide the same at

the lowest price, with adequate security for their performance. No extra compensation shall be made to any contractor, but if from any unforeseen cause the terms of any contract shall prove to be unjust and oppressive, the canal board may, upon the application of the contractor, cancel such contract.

Section five of article seven: § 5. There shall annually be imposed and levied a tax, which shall be sufficient to pay the interest and extinguish the principal of the canal debt mentioned in the third section of this article, as the same shall become due and payable, and the proceeds of such tax shall, in each fiscal year, be appropriated and set apart for the sinking fund constituted for the payment of the principal and the interest of the aforesaid debt. But the legislature may, in its discretion, impose for the fiscal year beginning on the first day of October, 1883, a State tax on each dollar of the valuation of the property in this State, which may by law then be subject to taxation, sufficient, with the accumulations of the sinking fund applicable thereto, to pay in full both the principal and interest of the canal debt before mentioned, and the proceeds of such tax shall be appropriated and set apart for the sinking fund constituted for the payment of the principal and interest of said debt. In the event of such action by the legislature, then the legislature shall, under the law directing the assessment and levy of such tax, make such provision for the retirement of the canal debt as it shall deem equitable and just to the creditors of the State.

Section six of article seven: § 6. The legislature shall not sell, lease or otherwise dispose of the Erie canal, the Oswego canal, the Champlain canal, the Cayuga and Seneca canal or the Black River canal; but they shall remain the property of the State and under its management forever. All funds that may be derived from any lease, sale or other disposition of any canal shall be applied in payment of the canal debt mentioned in the third section of this article.

Another set of proposed amendments to the foregoing sections is as follows:

Section three of article seven: § 3. The debts mentioned in the preceding sections of this article having been fully paid or provided for, and no longer liens upon the revenues of the canals, the surplus revenues of the canals, after paying the cost of collection, superintendence and ordinary repairs, shall in each fiscal year be credited to the reserve fund created under the sixth section of this article, and held to meet appropriations as therein provided. The rates of toll, established for the year 1880, on persons and property transported on the canals, shall neither be increased nor reduced except by the canal board, with the concurrence of the legislature. All contracts for work or materials on any canal shall be made with the person who shall offer to do or provide the same at the lowest price with adequate security for their performance. No extra compensation shall be made to any contractor; but if from any unforeseen cause the terms of any contract shall prove to be unjust and oppressive, the canal board may, upon the application of the contractor, cancel such contract. The legislature shall not sell, lease, or otherwise dispose of the Erie canal, the Oswego canal, the Champlain canal, the Cayuga and Seneca canal, or the Black River canal; but they shall remain the property of the State, and under its management forever.

Section five of article seven: § 5. There shall annually be imposed and levied a tax which shall be sufficient to pay the interest, and extinguish the principal of the canal debt, as the same shall become due and payable, and the proceeds of such tax shall, in each fiscal year, be appropriated and set apart for the sinking fund constituted for the payment of the principal and the interest of the aforesaid debt.

Section six of article seven: § 6. There shall be created a canal repair trust fund under the control and management of the commissioners of the canal fund, which shall be made up and sustained in the following manner:

1. By the transfer thereto of any unexpended moneys remaining in the treasury at the time of adoption of this section, belonging to the canal fund and standing on the books of the canal department

to the credit of the "fund for extraordinary repairs," the "fund for the enlargement of the Champlain canal," and the "fund for the reconstructing of the Oneida Lake canal."

2. From the surplus revenues in each fiscal year, after paying the expenses of collection, superintendence and ordinary repairs of the canals.

All of which fund so hereby created shall be separately kept and safely invested by the commissioners of the canal fund, and may under the direction and enactment of the Legislature from time to time be appropriated, to make good any failure in the revenues to meet the appropriations for the ordinary expenditures, or for the permanent improvement of the canals.

LOCAL INDEBTEDNESS.

Addition to section eleven of article eight: No county containing a city over one hundred thousand inhabitants, or any such city, shall be allowed to become indebted for any purpose or in any manner to an amount which, including existing indebtedness, shall exceed ten per centum of the assessed valuation of the real estate of such county or city subject to taxation, as it appeared by the assessment-rolls of said county or city on the last assessment for State or county taxes prior to the incurring of such indebtedness; and all indebtedness in excess of such limitation, except such as may now exist, shall be absolutely void, except as herein otherwise provided. No such county or such city, whose present indebtedness exceeds ten per centum of the assessed valuation of its real estate subject to taxation, shall be allowed to become indebted in any further amount until such indebtedness shall be reduced within such limit. This section shall not be construed to prevent the issuing of certificates of indebtedness, or revenue bonds issued in anticipation of the collection of taxes, for amounts actually contained or to be contained in the taxes for the year when such certificates or revenue bonds are issued and payable out of such taxes. Nor shall this section be construed to prevent the issue of bonds to provide for the supply of water, but the term of the bonds issued to provide for the supply of water shall not exceed twenty years, and a sinking fund shall be created on the issuing of the said bonds, for their redemption, by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at their maturity. Any such city whose debt now exceeds said ten per centum shall decrease the amount each year, at the rate of at least one per centum on the assessed valuation of the taxable property of said city, until such debt is reduced to an amount equal to the rate of said ten per centum. The amount hereafter to be raised by tax for county or city purposes, in any county containing a city of over one hundred thousand inhabitants, or any such city of this State, in addition to providing for the principal and interest of existing debt, shall not, in the aggregate, exceed in any one year two per centum of the assessed valuation of the real and personal estate of such county or city to be ascertained as prescribed in this section in respect to county or city debt.

TERMS OF THE SUPREME COURT, ETC.

Section twenty-eight of article six: § 28. The Legislature, at the first session thereof after the adoption of this amendment, shall provide for organizing in the Supreme Court not more than five General Terms thereof; and for the election, at the general election next after the adoption of this amendment by the electors of the judicial districts mentioned in this section respectively, of not more than two justices of the Supreme Court, in addition to the justices of that court now in office, in the first, fifth, seventh and eighth, and not more than one justice of that court in the second, third, fourth and sixth judicial districts. The justices so elected shall be invested with their offices on the first Monday of June next after their election.

Section twelve of article six: § 12. So as to provide for detailing judges of the Superior Court and Court of Common Pleas of New York, the City Court of Brooklyn, and the Superior Court of Buffalo, to hold circuits and special terms of the Supreme Court, and Court of Oyer and Terminer.

THE NEW YORK SENATORIAL CONTEST.

On the 16th of May, 1881, Senators Conkling and Platt resigned their seats in the United States Senate and on the 31st of May the New York Legislature began balloting for their successors, and continued until the 22d of July. Mr. Platt's name was withdrawn after the thirty-first ballot and Mr. Jacobs' was withdrawn after the twenty-third ballot. The following is the result of the balloting in joint convention:

The matter was settled finally by a caucus of Republican members, called informally, July 16, at which Hon. Warner Miller was nominated and elected by the joint convention the same day. On the 22d of July, Hon. Elbridge G. Lapham was chosen by a caucus informally called, and elected in place of Conkling.

* Withdrawn after the 23d ballot.

Illinois stood fifteenth in relative rank in 1870, producing 25,761 tons, while Indiana stood thirteenth in 1880, producing 96,117 tons.

The whole amount of capital invested in the iron and steel industries of the United States in 1880 was \$230,971,884; in 1870 it was \$121,772,074; increase, \$109,199,810, or 89.68 per cent. The percentage of increase in production in 1870 is 98.76.

The whole number of establishments in 1880 was 1,005. In 1870 it was 808. The percentage of increase in the ten years was 24.38. The size and capacity of the establishments were, however, much greater in 1880 than in 1870. As the capacity of blast-furnaces only was given in 1870, no complete data are available for a comparison of the capacity of all the works in the two periods. The daily capacity of the blast-furnaces in 1870 was 8,357 tons, and in 1880 it was 19,248 tons—an increase of 130.32 per cent. A comparison of the number of the various works in 1870 and 1880 is given below:

Prof. BURNHAM, M. D.

Sir—Something near 5 years ago I sent to you for a Triumph Truss for a Rupture of 9 years standing. I cannot praise the
Truss enough for the benefits I received from it. It cured me entirely, though I did not have to use all the Salve. I was cured in
about 30 days. If this will be of any benefit to you, you may publish it.

RHEUMATISM is more common and distressing, especially in this country, than almost any other disease, and, at the same time, it may be asserted that it is as little understood and as unsuccessfully treated. Physicians, in many cases, are unable to cure it, even in their own person; yet such are the unparalleled virtues of the celebrated Merchant's Gargling Oil, that the most obstinate cases at once yield to it.—*Springfield (Mass.) Daily Union.*

MERCHANT'S GARGLING OIL.—This standard liniment has been before the people for over forty years, it having been first manufactured in 1833, and it is safe to assert that no preparation in the market has so fully stood the test of time, and been received with such universal favor as the Gargling Oil. It is found in nearly every household in this country, and is also sold extensively in Europe. From a very small beginning the Gargling Oil Company has been obliged to steadily increase its facilities for manufacturing, and now employs an army of men, and occupies magnificent buildings of its own. Much of the success of the company is due to the careful and efficient management of Mr. John Hodge, who for some time has held the responsible position of Secretary, and who is also the proprietor of the Hodge Opera House, one of the finest buildings in Lockport, N. Y. The Gargling Oil is for sale at all the drug stores.—*Quincy (Ill.) Whig.*

COVERT'S

Patent Improvement in

ROPE GOODS.

*No more Splicing or Winding
Ends with Cord.*

No. 1.

No. 2.

Rope Halters, Horse Ties, Cattle Ties, Halter Leads, etc., made by clamping the lap with steel rings, as shown in cut. Also, clamping the end with a ring to prevent unbraiding.

This is accomplished by machinery, and a superior article can be made at so much less cost, it will not pay any one to make up goods the old way. We are now prepared to furnish the trade the cheapest and best Rope Halters ever made. No. 1 illustrates the twisted and irregular form of the spliced Halter; also the insecure method of whipping the end with cord, which invariably comes off, and allows the rope to untwist. No. 2 illustrates the New Halter. It is made by clamping the laps with steel rings. The end is also secured with a steel ring, which will remain as long as the rope lasts. We have also a full line of

Merchant's Gargling Oil as a Family Liniment.

We are now, and have been for some years, preparing the Oil free from stain, to be used as a common liniment for human flesh, extracting the coloring ingredient which has heretofore rendered it objectionable. This Oil possesses all the medicinal properties of that prepared with the dark tinge for horses and cattle, and will be found one of the best remedies for all purposes where a liniment is required that has ever been manufactured.

From J. K. Fisher, Uniontown, Pa., Jan. 31, 1857.—“Your Gargling Oil is doing much better here than formerly, since its virtues have become known; and the bottles put up for family use, without stain, are much sought for.”

Q.—The Gargling Oil called “Family Oil,” although prepared intentionally for human flesh, answers as well for beasts; *vice versa*, the dark Oil answers as well for human flesh, only it will stain and discolor the skin, but not permanently. Yellow wrapper for animal and white for human flesh.

Gargling Oil Liniment as an Internal Remedy.

Merchant's Gargling Oil is a diffusible stimulant and craminative. It can be taken internally when such a remedy is indicated, and is a good substitute for pain killers, cordials and anodynes. For Cramps or Spasms of the Stomach, Colic, Asthma, or Internal Pain, the dose may be from fifteen to twenty drops, on sugar, or mixed with syrup in any convenient form, and repeated at intervals of three to six hours. Yellow wrapper for animal and white for human flesh.

MERCHANT'S GARGLING OIL is the Standard Liniment of the United States. Established 1833. Large size, \$1; medium, 50c.; small, 25c.; small size for family use, 25c. Manufactured at Lockport, N.Y., by M. G. O. Co., and sold by all druggists.
